

## 4-masala. SHORT LETTERS

Faqat inglizcha kichik harflardan iborat **input.txt** nomli faylda(ushbu faylni o'zingiz yaratishingiz mumkin va uni ma'lumotlarini to'ldirib tekshirib ko'rishingiz mumkin) matn berilgan. Simmetrik joylarda joylashgan bir xil harflarni "qisqartirish" orqali yangi qator hosil qiling (ya'ni, matnning o'rtasidan bir xil masofada ikkita bir xil harf bo'lsa, ularni olib tashlanish kerak). Agar matnning uzunligi toq bo'lsa, o'rtadagi harfni qisqartirish shart emas.

Nolga teng bo'lmagan uzunlikdagi qator kiritiladi. "Qisqartmalar" dan keyin olinadigan qatorni chiqaring.

**Eslatma: Barcha ma'lumotlarni foydalanuvchi kiritishi lozim va algoritmsiz ishlangan misolga past ball qo'yiladi.**

id(0);)

Input (Fayldagi ma'lumot)	Output (Faylga yangi yozilgan ma'lumot)
